

M2 Bed Bugs LLC

- Is there any food on the floor or within reach of the dog? This includes food accidentally dropped on the floor.
 - Has anyone sprayed any type of pesticide or chemical within the last 2 months?
 - Are there any drugs (legal or illegal) within reach of the dog?
 - Are there any toxic chemicals or products with a strong odor within reach of the dog? This includes cleaning supplies, solvents, perfumes, personal care products, lubricants, and fuel.
 - Are all pets secured in such a way to prevent contact with the inspection team?
 - Are there any sharp objects that can injure the inspection team? This includes tools, craft tools, medical implements, needles, and broken objects.
 - Are any cigarettes, cigars, or ashtrays within reach of the dog?
 - Is there anything not mentioned above on your property that represents a risk to our inspection team?
- * Our dogs are highly trained. Studies have shown that dog of this caliber can detect within 98% accuracy. However, every situation is unique and there is no guarantee that the inspection team will properly detect bed bugs in your environment.
- ** Like any animal, dogs are independent thinkers. No amount of training removes their ability to make their own decisions. M2 is not responsible for damages during an inspection.

M2 Dog Assisted Bed Bug Inspection Pre-checklist

By taking a few extra minutes, together we can protect your property, your family, your pets, and our M2 Inspection Teams.

We rely on our clients to assist in identifying risks and conflicts before we start the inspection process. Our inspection teams will be looking into small spaces, reaching into dark places, and moving objects.

IF you have questions or concerns, please ask your technician or call us at 740-652-5292.
